

# Advanced Probiotics

*You may wonder why a person needs to add probiotics to the daily regimen. The fact is that we modern society types are undernourished. Oh, we get enough calories, that's for sure, but we lack real nutrition. This Advanced Probiotic formula replaces the good gut flora that gets destroyed when we eat only junk food for a time, or when we have had to take an antibiotic for medical reasons.*

## Advanced Probiotics – GI Tract Health Support Immunity

- There's no doubt that good health begins in your digestive tract. Constantly replenishing the healthy, beneficial bacteria in your gut promotes healthy, comfortable digestion and proper nutrient absorption. Our recently updated Probiotic Advance gives you a total of seven strains of healthy bacteria, for strong immune benefits—including a boost to your natural killer cells. These white blood cells play a critical role in keeping your cells healthy. Altogether you get immense relief from gas, bloating, constipation, occasional diarrhea, plus greater immune support (including relief from seasonal irritants), and targeted benefits for women. You now get a total of seven strains of healthy, beneficial bacteria. That means all the same benefits:

- Healthy digestion and better nutrient absorption
- Support for regularity
- Stronger gastrointestinal health
- Improved breakdown of undigested foods

- A stronger immune system
- Reducing occasional diarrhea
- Relief from seasonal irritants
- Vaginal and urinary tract health

Smile!

Garey Simmons is a holistic health coach, dietary supplement expert and board certified by the American Association of Drugless Practitioners. Garey turned his health challenges around in just a few months by using Omega-3 supplements. Garey is a graduate of the New York Institute of Integrative Nutrition and lives in Baltimore, MD and is the father of ten children.
